

Patient Fees

A current email address will need to be provided, then an invoice for services will be sent to that email. You can then pay the invoice online.

The fee for the first hour of service is **\$625.00**. After that, the patient is billed at **\$95.00** for every 15-minutes until discharged.

Any medications needed other than routine sedatives will be an additional fee for the cost. Examples of these include anti-inflammatory, steroids, and anti-nausea medications.

Dental and Medical insurance billing:

Currently insurance billing is not part of our service, but we can provide you with forms and the billing codes needed to file on your own behalf.
